

## **Courses Taught**

### **CMH-C543 Understanding Health Disparities**

A seminar format is used to examine health disparities in ethnic and racial minorities, emphasizing disparities in chronic diseases affecting African American communities. The course explores the political, social and economic determinants of disparities in health status, health behavior, and access to and use of health care.

### **CMH-C544 Eliminating Health Disparities**

This course examines community-based solutions for eliminating health disparities. Emphasis is placed on examining the policy implications and evaluation of strategies and programs.
